

1. Choose two contrasting colors 
2. Fill the first cell with your first color
3. Follow the arrows' rules to fill the next cells:

Triangular:
Fill the next cell
with the SAME color.

Circular:
Fill the next cell
with the OTHER color.
4. Share your results! #HamiltonianCards

A 10x10 grid of 100 squares, each with a unique black-and-white geometric pattern. The patterns are variations of a central square with different combinations of notches, tabs, and internal lines, creating a complex, interlocking visual effect.
